ETHANOL FIREPLACES PREMIUM COLLECTION

PLANIKA 2025

VALID FROM 01 JANUARY 2025

EURO PRICELIST

planika

Our contribution to achieve CO₂ neutrality.

Our mission is to give you modern fireplaces that are safe, convenient and eco-friendly. Over the years we have developed the innovative BEV Technology[®] that allowed us to create an exceptionally clean and fully automated burning process of ethanol vapours. It produces lower carbon emissions and is safe for the environment. Discover ecological fireplaces of the future.

Ethanol is an organic distillate made from plants.
It is known to produce lower CO₂ emissions.

100% of the emissions are compensated by plants absorbing CO₂.

The netzero technology changes liquid ethanol into gas. The flame has full access to oxygen.

The clean burning of ethanol vapour emits significantly less CO₂ than regular fireplaces.
No ash, soot or smoke are produced.

FLA4 BURNER

AUTOMATIC ETHANOL BURNER WITH BEV TECHNOLOGY®

planika

- remote control included
- touch display
- automatic refill system
- BEV Technology®
- mobile app control
- SHS compatible
- 6 stage flame height
- CO₂ sensor

biofuel for fireplace

renewable energy source

Ethanol is an organic distillate made from plants.
It is known to produce lower CO₂ emissions.

100% of the emissions are compensated by plants absorbing CO₂.

The netzero technology changes liquid ethanol into gas. The flame has full access to oxygen.

The clean burning of ethanol vapour emits significantly less CO₂ than regular fireplaces.
No ash, soot or smoke are produced.

Transport:

Indoor Ethanol Fireplaces:

- Prime Fire / FLA4/4+ / Freestanding Fireplaces / NEO fireplaces : € 110
- Casing / Forma / Panorama : € 360
- Table Burners : € 20

Outdoor Ethanol Fireplaces:

- Cabo series € 360
- Porto series / Jar / Totem / Rondo:€ 110
- Simple: € 20

Product specifications and prices are subject to change.
The current price sheets are available at <http://download.planikafires.com>

The fuel consumption figures provided are based on laboratory testing at the lowest flame level.
The actual consumption of individual devices may vary.

Technology tested by TÜV laboratory,
DIN standard 4734-1:2011-01
European Technology Patent: EP2 549 182
